

PearlStreet

PIPELINE NON DESTRUCTIVE TESTING AND INSPECTION

Non Destructive Testing (NDT) is used during the construction of Oil and Gas pipelines to certify weld compliance with pipeline construction standards.

WHAT DOES PEARLSTREET DO?

PearlStreet's Pipeline Division provides a range of services to pipeline construction contractors to ensure that construction welding is completed in accordance with appropriate specifications.

Our capabilities include:

- Radiographic Testing
 - Crawler Systems
 - Gamma Ray
 - X Ray
 - Digital Radiography
- Automated Ultrasonic Testing
 - Phased Array
 - Time of Flight Diffraction
- Magnetic Particle Testing
- Manual Ultrasonic Testing
- 3rd Party Inspection and Auditing
- Welding Inspection
- Welding Engineering
- Materials Engineering

NATA ACCREDITED

We are accredited by The National Association of Testing Authorities (NATA) for pipeline NDT and Inspection.

WHAT CAN YOU EXPECT FROM US?

- Accurate and timely results
- Experienced Technicians and Inspectors
- National Coverage
- Extended operating hours to meet production schedules
- Continuing Investment in Advanced Technologies
